DETAILED ACTION

Claims 1-3 and 16 are under consideration in this application.

Claims 17 and 18 remain held withdrawn from consideration as being drawn to nonelected subject matter 37 CFR 1.142(b).

Election/Restrictions

The restriction requirement is deemed sound and proper and is hereby made FINAL.

Again, this application has been examined to the extent readable on the elected compound wherein R¹ and R² represents alkyl substituted by pyridyl as set forth in claim 1, exclusively.

Claim 1 is not allowable since applicants have not limited the claim to the elected compounds, *i.e.*, R¹ and R² are alkyl substituted by pyridyl. Claim 1 recites that alkyl “may be substituted” and not “substituted” by pyridyl. It is suggested that the nonelected compounds deleted.

Claims 17 and 18 will not be rejoined at this time because applicants have not presented a claim to the elected compounds. Applicants are *reminded of propriety of process of use claims in consideration of the “reach-through” format which is drawn to mechanistic, receptor binding or enzymatic functionality. Reach through claims are considered lacking of descriptive and enabling support from the specification.* Claims 17 and 18 fail to meet the requirements of 35 U.S.C. 112. There is no evidence of record that the instant compounds are able to treat all disorders associated with ICAM-1 suppression. A claim to all ICAM-1 mediated disorders is considered a reach through to the continuous development of the field and do not meet the requirements of 35 U.S.C. 112.

Allowable Subject Matter

Claim 1 is objected to as containing nonelected subject matter. The objection may be overcome by limiting the claim to the subject matter indicated as examinable, supra. A claim so limited would appear allowable.

Claims 2, 3 and 16 presented in independent form or made dependent on an allowable claim would appear allowable, otherwise it is objected to as being dependent on a nonallowed claim.
